SECURITY (Qld) Pty Limited

Above Ground AG1

Burglary & Fire Resistant Security Safes

MODEL
AG1

The AG Series are designed for commercial applications requiring high security from fire and theft.

They are manufactured with a heavy-gauge steel door, and fitted with an electronic digital lock, They are also supported by a drill resistant steel plate that covers over all locking areas.

Heavy 25mm diameter high-steel bolts lock in the front and rear edges of the door, and a relocking device is fitted for extra security. Inner and outer safe walls are reinforced with high barrier matrix.

Standard sleeved bolt holes are provided in all safe models for anchor mounting to walls or floors.
